### 2007 Program Highlights

- ❖ 2007 was the sixth year since Virginia Tech Forestry Extension assumed responsibility for the administration and coordination of Virginia's SHARP Logger training and education program. Scott Barrett, Extension Associate, served as the SHARP Logger Coordinator, and Bob Shaffer, Charles Nettleton Professor of Forestry Operations, as Program Administrator. As of July 1, 2007. The SHARP Logger program coordinator's position was funded by VA Cooperative Extension. The Sustainable Forestry Initiative® (SFI®) Implementation Committee, a committee of the Virginia Forestry Association continues to provide funds for operating expenses.
- ❖ A total of 1045 individuals attended at least one program to earn SHARP Logger credits during 2007. There were 52 programs approved for SHARP Logger CE credits throughout the commonwealth in 2007.
- ❖ There were a total of 117 "new" SHARP Loggers who completed the core program requirements in 2007. 500 SHARP Loggers successfully completed the 12 credit CE requirement in 2007 and renewed their SHARP Logger standing, while 324 failed to complete the CE requirement and lost their SHARP Logger standing.
- ❖ As of January 1, 2007 there were 1434 current Virginia SHARP Loggers. These loggers represent logging businesses that produce an estimated 90%+ of Virginia's raw forest products.
- ❖ The Virginia SHARP Logger Program continues to be a **cooperative effort** between the VA SFI Implementation Committee, the Virginia Tech Forestry Department, Virginia Cooperative Extension, the Virginia Forestry Association, the Virginia Logger's Association, the Virginia Department of Forestry, as well as other forest products companies, state agencies, insurance industry firms, loggers and private landowners. These supporters provided training expertise, financial support, facilities, and field sites for SHARP Logger programs. **Without the help of everyone involved, the Sharp Logger Program could not succeed.**
